The patient - Master Virat Singh was brought in to our Bilaspur Unit by his mother - Mrs. Usa Bai at 11:00 PM on 7th March 2018. The child has sustained Homicidal Thermal Burn Injury. The child was attacked with an oil lamp. As a result of the incident, the child has sustained mostly 2nd & 3rd Degree Deep 32% TBSA Thermal Burn Injury. The Burns are on face, back head, both hand, stomach and flank area. The nature of injury is life threatening and requires considerable degree of specialist intervention and close monitoring. The patient is a child of 1.5 years. The injury is of a grave nature. We plan to manage the child conservatively applying wound dressing and debridement procedures to close the wound as early as possible. Surgical Skin Grafting if required, would be undertaken at a later stage. Chest Physiotherapy sessions and Pressure Garments would also be advised to achieve the best possible results against a possible pulmonary collapse and for a contracture and scar free recovery.

दिनांक - 03/03/18 को मेरा बेटा (बिस्का नाम - विरल सिंह, उम्र-3.5 वर्ष)
दुर्घटनाग्रस्त आग से जल गया था।

इलाज के लिए उसे बिष्नासपुर, हुलीसगढ़ के "बर्न एंड ट्रामा-

श्रीमान् मैं इतना खर्चा देने में प्रबल असमर्थ हूँ।

मेरी आर्थिक स्थिति भी बहुत बुरा खराब है।
